Now is the time!

Cass County Historical Society was founded in 1936 and has been in its present building since 1960. Additions have been made over the years but the collection continues to grow. We are in need of more exhibition and storage space. Through previous donations from estates and farmland from Dr. Gilmore (formerly of Murray) we have a good starting base. But we need significant financial giving to accomplish this worthy project to preserve Cass County history in a building which is functional, accessible, and an asset to our part of Nebraska

Please join us in this effort.

The proposed addition is pictured above. It will provide 10,000 square feet, including a full basement. The main floor will be on a level with the existing museum which will have some renovation. Because the farm building and the tractor shed are in poor condition and not accessible to the public, they will be demolished, leaving space for the addition.
